Pharmacopeia Grade Products

According to the requirements of the Pharmaceutical Industry

The PRS-CODEX, Pharmacopeia Grade Products are according to the requirements of the main Pharmacopeia used in the Pharmaceutical Industry, like the European Pharmacopeia (Ph. Eur.), the United States Pharmacopeia (USP) and the British Pharmacopoeia (BP).

The PRS-CODEX products are strictly controlled according to the methods and specifications defined in the last editions of these publications: USP 29, Ph. Eur. 6.8, BP 2010.

In our General Catalogue you will find more than 200 products, widely used in the Pharmaceutical Industry, or visit our web in www.panreac.com.

If you are interested in having more information, analysis certificates, special packaging or any other question, please don't hesitate to contact us. We will be very proud to help you.

This table shows the range of PRS-CODEX available.

Under demand we can offer them according to other pharmacopeias.
